Don't waste your time with your sarcasm Lisa.

You don't do any work for our people, only yourself so don't even bother replying with your nonsense!

Then I suggest you pay attention to your attitude and get the dialogue right instead of pissing on yourself! You are obviously not my friend Lisa and you an obvious conflict of interest so stand down on the matter until you learn how to engage properly!

For what it's worth Lisa, this is what your mother & chair are empowering, the oil & gas & mining industry & have set the scene for.

You may have sold out, I surely will not! Stand objective & be honest or be prepared to suffer the consequences of a national & international shame!

You may have betrayed Geoff, I certainly have not!
