Taha had no permanent place of abode, he had three places of residence which he used to occupy viz Pebitawa inland, Te Taharoa & Marotopa

on the Coast. I never heard that he had any land in his own right except at Taharoa where he had a Karaka grove. When he went to the

Middle Island he went from Pohangutu, he was driven away by Whakato, it was after Te Kaniwahau's migrations. Te Taha & Tahuri

also Te Ohu were living at Pebitawa when Ngatapa went to Marotopa to fish. Kariri Uta with his sister Kirirua & their children were

living at Marotopa when Ngatapa & his companions went there.

It was Te Ohu, Haeriri & Te Taha who caused Ngatapa to go to Marotopa instead of Kaohia & when Kariri Uta & his sisters saw him at Marotopa he was satisfied to let him remain there. Kariri Uta

had large mana thro' Whirokiri, N^o Makiri & N^o Maru the name was over the descend^{ts} of Tupahau. I can give his genealogy

ancestry, which will be recognized by us; his claim is in the vicinity of
 Te Miroaere (marked out on the map). The portion claimed by Te Pitopitu
 is section (W. 7) on the map, whose kiwao owned by Pitopitu, Anatiya
 Tuhoro and himself. Our claim is through the ancestor Kahinga.
 Mahamui, Wharo, Matawa to Korongo. Subdⁿ 10th & Whore to
 Mearunge 10th. Subdⁿ shown on the plan, are in accordance with old
 ancestral boundaries. Hiras Whatakihi & Te Whatarengenga
 who owned sections 10th & 9th respectively, I had kiwao who laid
 down the boundaries (10th & 8th) was owned by Maoretia, (10th) was owned
 by Pitopitu son of Te Kerewa, (10th & 6th) by Mahiri, (10th & 5th) by Te
 Muiua, (10th & 2nd) by Te Whata and Kiwi, also Uretekohi. I cannot say
 which ancestor it was who divided the pieces out as above. Te Muiua
 found his mana over the Marokapa was, after him I went to Te
 Rangikamerewai, after him to Te Whata elder brother of Te Tuhoro
 from him to Kawiri Uta. It is since the Rohepotae Court has been
 sitting that the land is almost entirely deserted. Some of Te Rangikamerewai
 his people returned and lived with Te Whata at Marokapa,
 Marokapa and inland at Mangarua. Their names were
 Hatarewa, Pitopitu, Te Whata, Te Rangikamerewai, they are all
 dead now, they have descendants living; they returned from Napier
 Wellington. Some before the War, the mana of those
 who left remained behind with those remaining; they still retain
 mana over the land in spite of having left it, it was kept alive by
 Kawiri Uta, Te Rangikamerewai, Te Whata, Te Rangikamerewai.
 The land owned by those who left the District is the whole of the
 block. Te Whata, Pitopitu requested them to return and Te
 Muiua was sent to fetch them & on their return the land and mana
 over it was restored to them. Kawiri Uta belonged principally
 to Te Whata & Te Rangikamerewai. Ngatapa never exercised any ownership
 over this land, the reason he lived there so long was because had
 nowhere else to go to. Having obtained a right occupation, he
 continued to reside there; the place that was given to him by my
 whaka was at Matangirirangi. It was in consequence of Ngatapa's mana
 that Te Rangikamerewai occupied both sides of Marokapa plain.

to Te Anau. The boundary from Hengatua has nothing to do with the disputed boundary of Te Anau on one side, & Parehau on the other, the dispute about it took place at Te Mura & Te Anau was, I think, that is the reason I mentioned his name yesterday in connection with that boundary. I have not been to Marotopa since I left in 1863.

When Ngatape & Te Kaniroa used to catch fish, they would clean them and present them to Rawiri others of W. Kinohaku. There never was any quarrel between W. Te Kaniroa & W. Kinohaku since they have occupied this land together. I never understood that the gift of Mataurawakiriki was absolute, I think it was only for occupation as those sell spread out it has been looked upon as a panna.

Some of the sell on the N. side of Marotopa belonged to Te Mura, Kaniroa & Tawiraki of W. Kinohaku. It was at Te Mura that Rawiri Uta was severely burned in one of the houses. People who left in possession of these sell when I went away were Karaka, Honeri, Hele, Heri, Te Rau, & Apohama to Maki, they are all pure W. Kinohaku who are connected with W. Te Anau.

The land from Te Tahara to Kawhia belonged to W. Te Anau when they were living in that district. From Parahaka to Arawhata belonged to Rueke brother of Tupahau & Kumar as W. Te Anau, from there to Kopua belonged to Kiwhinga sister of Te. S. Rangitira, from Kopua to Marotopa belonged to Tea and his descendants and from Marotopa to Purakau belonged to Makuri younger brother of Korokina, from there to Arawhata belonged to the descendants of Tupahau who were known as W. Te Anau. Te Rerenga, Rawanata & Tea sold portions there to the Gov^{mt}. The boundary was at Te Puihu Glenn Puihu & Tea sold Hanahari to the Gov^{mt}. Paku's statement as to the subdivision belonging to each ancestor is correct. The reason that Rueke owns a portion between Parahaka & Arawhata maybe because he possibly assisted Tupahau in taking that district.

W. Te Anau are descended from Raua, who was the brother of Pakana & Tea. Those descended from Tupahau were given the land between Purakau & Arawhata. When Hanahari was sold W. Te Anau got some of the money, notwithstanding they left the district they still retained mana over the land. Te Rotomarama is
